

PROFILE

I am Andrew (Hooseok) Lee, a Learning Support and Inclusive Education specialist with over 15 years of experience across both national and international school settings. My practice is grounded in evidence-based SEN provision, differentiated instruction, and a deep commitment to making learning genuinely accessible for every student.

At Korean International School Ho Chi Minh City, I design and lead the school's learning support program — working closely with classroom teachers, subject specialists, school counsellors, nurses, career advisors, administrators, and support staff to embed inclusive practice into the everyday fabric of school life. This cross-functional collaboration has been central to my work throughout my career, extending beyond the school gate to encompass universities, government agencies, local authorities, and businesses.

Alongside my practice, I lead domestic and international research on attitudes toward inclusive education — grounding everything I do in evidence and connecting classroom reality with the broader field.

EXPERIENCE

Career Overview

① Teaching Career

2024.03 — Present

KOREAN INTERNATIONAL SCHOOL HO CHI MINH CITY · VIETNAM

Special Education & Learning Support / Inclusive Education

Run the special education curriculum and inclusive education programme across primary and secondary levels, providing comprehensive learning support throughout. Work alongside classroom teachers, subject teachers, school counsellors, nurses, career advisors, administrators, and support staff to embed inclusive education into the daily life of the school. Design and implement Individual Education Plans (IEPs), manage assessment accommodations, and develop and operate the career and vocational education programme. Brokered an institutional MOU between the National Centre for Special Education, Vietnam (NCSE) and KIS HCMC (2024).

2014.03 — 2024.02

YONSEI UNIVERSITY REHABILITATION SCHOOL · SEOUL, KOREA

Special Education Teacher

Taught special education across primary, secondary, and post-secondary levels including the post-school transition programme over a decade, supporting students with a wide range of disabilities and varying levels of need. Planned and led school-based professional learning communities in software education, AI-integrated instruction, and assistive technology, driving school-wide pedagogical innovation. Committed to inclusion that extends beyond the school gates, partnered with education authorities, universities, businesses, government agencies, and local communities to broker institutional agreements and support graduates' transitions into employment and society.

2008.05 — 2010.05

SPECIAL EDUCATION SCHOOL · KOREA

Learning Support Assistant — Social Service

Completed 24 months of mandatory alternative military service in South Korea as a learning support assistant in a special education school. Provided direct in-class support to students with disabilities, gaining foundational experience in SEN environments that shaped a long-term commitment to inclusive education.

② Lead Teacher

2020.03 — 2024.02

SEOUL METROPOLITAN OFFICE OF EDUCATION & SEOUL WEST DISTRICT OFFICE OF EDUCATION · KOREA

EdTech Lead Teacher

Designated as EdTech lead teacher by Seoul Metropolitan Office of Education and Seoul West District Office of Education over four consecutive years. As one of few special educators among predominantly general education teacher cohorts, collaborated closely with colleagues across subjects and roles to integrate digital tools and AI-based resources into diverse classroom settings, and contributed to city-wide AI education initiatives.

PHILOSOPHY

Where learning environments designed for all meet attentive, personalised support for each — inclusive education blossoms into culture. That intersection — inside the classroom and beyond — is what I am building, together.

2020.03 — 2021.03

SEOUL METROPOLITAN OFFICE OF EDUCATION · KOREA

Software Education Lead School Coordinator

Coordinated school-wide software education initiatives as part of Seoul Metropolitan Office of Education's flagship software education programme. Designed and led a professional learning community focused on software-integrated instruction, supporting colleagues in embedding computational thinking and coding into special education curricula.

2022.03 — 2024.02

SEOUL WEST DISTRICT OFFICE OF EDUCATION · KOREA

Teaching & Assessment Sharing Support Network

Served as a member of the Teaching and Assessment Sharing Support Network under Seoul West District Office of Education — often the sole special educator in a network of general teachers. Contributed to peer observation culture and collaborative professional reflection, sharing practical case studies on inclusive assessment design and instructional adaptation from a special education perspective.

③ Expert Panel & Consultancy

2019 — 2023

NATIONAL INSTITUTE OF SPECIAL EDUCATION · KOREA

Expert Advisor & Field Reviewer

Served across multiple advisory and review roles at the National Institute of Special Education. As a field applicability reviewer for digital textbooks, provided classroom-based perspectives on usability and improvement needs for students with disabilities. Served as an advisory committee member for the National Disability e-Festival. As an expert advisor on the science immersive content development project, provided advisory input on content planning and the design of interaction and motion elements suited to the needs and educational contexts of students with disabilities. Also contributed to the Assistive Technology Device Guidebook, introducing remote-control assistive technology devices in teacher-friendly language; the content was subsequently adopted as an official teacher training topic. In 2023, joined the EduAble Field Support Team — collaborating with general education teachers to develop teaching and learning materials for inclusive classrooms.

2020 — 2022

KERIS (KOREA EDUCATION AND RESEARCH INFORMATION SERVICE) · KOREA

Expert Advisor & Teacher Support Panel

Contributed across two consecutive programme cycles as an expert advisor for KERIS's EdTech startup-classroom matching programme, bridging the gap between EdTech solutions and the needs of real classroom settings. Provided a practitioner's perspective on selecting genuinely useful tools and reflecting user needs in UI and UX design decisions. Served as a teacher support panel member for the national online content-integrated textbook pilot. Developed and submitted special education and inclusive education teaching and learning materials to the EduNet ITDA platform, making resources accessible to teachers nationwide.

④ Curriculum & Materials Development

2023 — 2024

MINISTRY OF EDUCATION, REPUBLIC OF KOREA

Textbook Author — English (Middle School)

Served as curriculum author for the official English textbook under the 2022 Revised Special Education National Curriculum, covering the middle school level. Authored accessible and practically oriented instructional content designed to strengthen real-life English communication skills for students with disabilities, reflecting current inclusive curriculum design principles.

⑤ Guest Lecturer & Trainer

2019 — 2022

SCHOOLS, DISTRICT OFFICES OF EDUCATION & NATIONAL INSTITUTE OF SPECIAL EDUCATION · KOREA

Guest Lecturer & Trainer

Served as a guest lecturer and trainer across a range of educational contexts. Delivered teacher training sessions for in-service educators at schools, district offices of education, and the National Institute of Special Education. Delivered lectures to undergraduate students in special education and social welfare programmes at university level. Also conducted disability awareness and empathy education sessions for students at general middle and high schools. Key topics included school-wide student support systems, learning support for students with disabilities, Positive Behavior Support (PBS), assistive technology, AI tools in education, and inclusive classroom practice.

⑥ Professional Development

2023

GOOGLE KOREA · MICROSOFT KOREA · LG DISCOVERY LAB · SEOUL WEST DISTRICT OFFICE OF EDUCATION

AI & EdTech Lead Teacher Capacity Building Programme

Completed intensive capacity building training for EdTech lead teachers, delivered jointly by Google Korea, Microsoft Korea, and LG Discovery Lab in partnership with Seoul Metropolitan Office of Education, covering AI-based educational tools, cloud learning environments, and future-ready classroom design. Subsequently presented as a trainer at the district-level AI & EdTech Future Education Sharing Forum (Seoul West District Office of Education, Oct 2023), facilitating knowledge transfer to peer teachers on AI integration in special education contexts.
